

THE GAZETTE.

There were over fifty thousand farms opened in Kansas during the past year.

Prohibition is strongest outside of politics. Throw the question into a political campaign, and the temperance cause is weakened.

Over 500 postoffices, whose receipts are less than \$100 a year, have democratic postmasters. The democratic stomach, like the prodigal son's, must be filled with something, and a postoffice with only \$10 a year, is better than nothing.

If the interstate commerce commission suspends the law in all cases for which application has been made, there will be nothing left of it. The loss the country has of a law which tends to cut down western farm produce, the better it is for the people.

The Washington Post shows in the following item how theft is rated. For instance, a man who steals \$1,000,000 is called a genius.

Stealing \$100,000 is called shortage.
" 50,000 " " litigation.
" 25,000 " " insolvency.
" 10,000 " " irregularity.
" 5,000 " " defalcation.
" 1,000 " " corruption.
" 500 " " embezzlement.
" 100 " " dishonesty.
" 25 " " stealing.
" 5 " " total depravity.
" one ham " " war on society.

And generally the man who steals the ham is the one that receives the severest punishment.

We have constantly asserted that the worst thing Mr. Blaine could do would be to enter the political field as a candidate in 1888. We have had in view, of course, Mr. Blaine's personal interests only. In the first place, his health is not of the best. He has suffered a great deal lately from physical ailments, and, as his closest friends admit, is not fitted to bear the terrible strain of a protracted contest.

The Herald is very kind indeed to make this suggestion in regard to Mr. Blaine. But it will strike a man who has his wife about him that the Herald has more fear of Blaine's strength than it has sympathy for his physical condition. When a democratic paper talks in this way it is clear that it has some misgivings as to the result should Blaine choose to have the nomination.

Mr. Carroll D. Wright, chief of the United States Bureau of Labor Statistics, is collecting statistics as to marriage and divorce in the United States. It will probably be a year before the data can be prepared in the form of a report. The bureau has considerable work in progress at present. The report on convict labor will be issued in about two weeks. The report on labor strikes will be ready this fall. Another subject of inquiry now in progress is in relation to the moral and economic condition of working women and girls in the great cities of the country. The bureau will also make inquiries into the cost of the distribution of food staples—how the cost of food is increased by transportation rates, and other facts bearing on the general subject.

Certainly the Milwaukee authorities have done their duty well in dealing with the rioters in that city, and the following comment on the result from the Philadelphia Press shows what is thought of the matter in that city: "With the conviction of Paul Grottkan the last of the trials of the indicted rioters in Milwaukee is ended. This leader of the anarchists, who could not speak English and who had been only a few months in the country the institutions of which he considered himself competent to overthrow, will probably go to prison for a year. This is comparatively a light sentence for a crime so grave as that which Grottkan committed, but it will teach him and his fellow anarchists a wholesome lesson. Last week four other Polish rioters were found guilty. They were Stephen Buzza, John Odio, John Doan and Joseph Shupczyczyński. Judge Sloan, who has presided at these trials, has won much deserved commendation for his impartiality and his clear and exhaustive statement of the nature of the crime of rioting. That the trials were ended on the day before the first anniversary of the riots in Milwaukee makes the result look like poetic justice."

The Wisconsin Gettysburg commission have returned home, and have agreed upon the sites for the monuments on the memorable battlefield. The following places have been selected for the Wisconsin monuments: The iron bridge, Second and Seventeenth regiments, going south where General Reynolds was killed and where a monument is erected, located their monuments on a little wooden ridge about 200 feet south of the former, and the sixth Wisconsin, Colonel Dawes, near the bridge over the railroad track, on Battlefield avenue, which runs north and south. The Third Wisconsin commissioners located their monument on Oulph's farm, almost at the extreme right of the line, near the monument of the Second Massachusetts and Twenty-seventh Indiana, selecting a large rock as a foundation. The Fifth Wisconsin monument was located east of Big Round Top, on the left of the line. This place is three miles out of town and is reached by the Tanytown road. An observatory, higher than the surrounding trees, has been built on top. The Twenty-sixth regiment was placed in line of battle in a large corn field belonging to the poor farm, which has not yet been purchased by the Memorial association.

The monuments to be erected for Wisconsin regiments will be of gray or blue granite for the base and red granite for the monument, as that by glancing over

the battlefield the visitor can at once perceive where the Wisconsin regiments were in line.

The blindness of a parkman organ is illustrated by the following note from the Milwaukee Sentinel:

Taking him by and large, the editor of The Madison Democrat is the most comfortable man in the country. Most men are troubled by doubts and are forced to the painful process of collecting facts and weighing evidence. But he is free from all such troubles. What facts are presented which are not to his taste, he simply calls them lies and returns to the serene contemplation of his own comfortable ease of opinion. Yesterday, for example, taking examination of the books in the New York custom house under this economical administration shows an increase in the number of employees by 107 among others three "confidential clerks and deputy collectors" at \$2,000 each, one "reporter" at \$2,000, three at \$1,000 each, and nine at \$1,000 each—that these new places have been filled without civil service examinations; that the amount of the monthly pay-roll has been increased \$22,150 within a year; that \$3,383 of this increase is in the paymaster's office—he quickly disposes of it by saying that "it is a plank of the Blaine platform—a falsehood." The fact that the surveyor audits the increases and tries to defend it by putting aside with the simple dignity of a man who is not concerned about evidence but is satisfied with his own intentions.

The Madison Democrat, the Harper's, and that class of newspapers which go to bed on Cleveland's civil service business, are a good deal like the German colonel of an Illinois regiment during the rebellion. After a hard march one day the troops camped near a town where there was a good chance for the men to get something to eat. There were general orders against foraging, but the colonel said to his officers, "I shut shut mine eyes for two hours, and I see nothing." The hide-bound partisan papers of the democratic party, and some of the mugwump papers in the east shut their eyes on the Cleveland civil service blunders. They don't want to see them, and won't.

STARTERS IN THE DERBY.
Notes from the Louisville Times Track-Turf and Field Items.
LOUISVILLE, Ky., May 9.—About 200 horses are now quartered at the Jockey club track. Among them are the stallions of Capt. Sam Brown, E. J. Baldwin, Amos M. Campbell, Corrigon Brothers, G. M. Rye, and Moses Patton. Corrigon, Armstrong and Funk. The California horses arrived here about ten days ago from the Pacific coast, it is asserted, have been coming for a day or two past. Color is given to this assertion by the fact that nearly all of that string in active preparation are well in heavy rock hocks and "blanks." "The stallions were sent up to the line before leaving the shore," said a prominent turfman, "and consequently have been unusually susceptible to climatic changes." Jim Gore is in better condition than he has yet been this season, and the chances of his giving way are daily growing less. Hayward, the eastern jockey, will take the Derby mount on Gora. R. L. Lister's Jacobin is being strongly backed in the Louisville books, by the Lexington turfmen. Stablemen, owners and trainers arriving from Lexington and Woodford county support him in preference to any other Derby starter.

The following are the probable Derby starters up to date, those not named having been declared out: Lake Alexander, Ben Gleason, Dusk, Weeks, Klartown, Clarion, O'Fell, Pecos, Ben Bowman, Soquel, Libretto, Brian-Ban, Acton, Foster, Montrose, Jacobin, Leap Year, Tokon, King, Pansy, Jim Gore, Fred Hunter, George Bendure, St. Valentine, Maggie Bowers, Theodorus, Free Lance, Dan Yan, Insouler, Penderous, and Goliath. Mr. Higgins has not yet sent a declaration of his six entries, but as they are all in the list, it is presumed they will not start.

Racing Record.
The track at Lexington, Ky., Saturday was fouled up in mud. The winners were: Knight of Elmslie, 1 1/4 miles, 2:15 1/2; Judge, 2 miles, 3:07 1/2; Monitor, 1 1/2 miles, 2:50 1/2; Linda Payne, 1/2 mile, 1:21 1/2.
At Nashville Saturday was the closing day. Col. Owens won the 1/2 mile in 1:17 1/2, Fells City the 1/4 mile in 1:45, Elmhurst the 1/2 mile in 1:57 1/2, and Elgin the 1/4 mile in 1:21 1/2.

At the Calhoun meeting the grand national steeplechase, about 10 miles, was won by Blue Day; Jim McGowan was second.

Didn't Appreciate Fine Dogs.
New York, May 9.—Piero Lorillard celebrated Rancocas kennels of English setters, and a draft of colts from the Tompkins farm, Long Island, were sold at auction yesterday. A number of well-known gentlemen from all parts of the country were present during the sale. The Rancocas kennels were established by Mr. Lorillard two years ago at the Tompkins farm. They were stocked by the best setters that could be procured, regardless of price. The dogs brought ridiculously small sums, the prices ranging from \$15 to \$40. The latter price was paid for two imported English setter studs, "Buckingham" and "Glenview," Mr. Lorillard paid \$100 each. The highest price for the colts was brought by the "Lass of Lowrie," a noted winner. The dog brought only \$75.

Another Defeat for Chicago.
CHICAGO, May 9.—The League base ball champions are making a bad start this season. The Fishkings again bent down their own grounds Saturday, the score standing: Chicago 8, Pittsburg 10. Clarkson and Darling were the home club's battery, and Galvin and Miller did the work for the Pittsburg boys. On longmen game at New York City—Washington 1, Philadelphia 6—six innings; at Detroit—Detroit 18, Indianapolis 2.

Association scores: At Cleveland—Cleveland 4, Cincinnati 5—five innings; at Philadelphia—Philadelphia 1, Baltimore 2; at St. Louis—St. Louis 12, Louisville 7. Sunday Association games: At Cincinnati—Cleveland 7, Cincinnati 6; at St. Louis—St. Louis 6, Louisville 4.

Long Distance Ocean Race.
New York, May 9.—A race has been arranged between the well-known clipper ship, Commodore, of Boston's California Fleet line, and the Challenger, of the New York & California line. The race will be from this point round Cape Horn to San Francisco. The vessel will start from here on Tuesday, and carry twenty-five men in all, Cape Horn being the first point to be reached. Hatch the Commodore. A large pile of money is wagered on the result, and the liveliest kind of a race is anticipated.

Saved His Life.
Mr. D. V. Wilson, of Horse Cave, Ky., says he was, for many years, badly afflicted with Pthisis, also Diabetes; the pains were almost unendurable and would sometimes throw him into convulsions. He tried electric Bitters and colic relief from first bottle and after taking six bottles, was entirely cured, and had gained in flesh eighteen pounds. Says he positively believes he would have died had it not been for the relief afforded by Electric Bitters. Sold at fifty cents a bottle by Frank Sherer & Co.

Advice to Mothers.
Mrs. Wistler's experience may be of use to all mothers. "I was used for children to this medicine, and it cured the worst cases of colic, worms, and all other ailments. It is the best I have ever used."—A Mother.

THE DOMESTIC TRAGEDY SO FREQUENTLY PLAYED BY THE MAN.
Quoted by an Indiana Woman—She Goes a-Wooling Her Unwilling Husband with the Aid of the Deadly Pistol—The Seed Is a Doubt Man and a Probably Insane Woman—A Rascally Grocer.

GREENCASTLE, Ind., May 9.—At 8:30 o'clock Saturday morning a tragedy occurred which resulted in the killing of John Fromer by his wife, Hannah M. Fromer. These people were each about thirty years old, and were married Sept. 18, 1883, both having been married before. Fromer had six children by a former wife, and Mrs. Fromer had two children also. Both were married. The children range from 8 years upward, the oldest being the wife of Henry Bocrat, a schoolkeeper. Fromer and his wife quarreled soon after their marriage, principally about a house and lot she owned. They separated and she made up town, she remaining at home in the west part of the city. They visited each other frequently and endeavored to effect a reconciliation. About three months ago she attempted to poison herself, and at times the neighbors thought her crazy. Since then her husband has frequently said he was afraid of her, but continued to meet her often at the saloon of his brother, Charles Fromer, on South Broadway.

A WOMAN THIS TIME.

THE DOMESTIC TRAGEDY SO FREQUENTLY PLAYED BY THE MAN.

Quoted by an Indiana Woman—She Goes a-Wooling Her Unwilling Husband with the Aid of the Deadly Pistol—The Seed Is a Doubt Man and a Probably Insane Woman—A Rascally Grocer.

GREENCASTLE, Ind., May 9.—At 8:30 o'clock Saturday morning a tragedy occurred which resulted in the killing of John Fromer by his wife, Hannah M. Fromer. These people were each about thirty years old, and were married Sept. 18, 1883, both having been married before. Fromer had six children by a former wife, and Mrs. Fromer had two children also. Both were married. The children range from 8 years upward, the oldest being the wife of Henry Bocrat, a schoolkeeper. Fromer and his wife quarreled soon after their marriage, principally about a house and lot she owned. They separated and she made up town, she remaining at home in the west part of the city. They visited each other frequently and endeavored to effect a reconciliation. About three months ago she attempted to poison herself, and at times the neighbors thought her crazy. Since then her husband has frequently said he was afraid of her, but continued to meet her often at the saloon of his brother, Charles Fromer, on South Broadway.

Saturday morning, after looking for him about town at several places, Mrs. Fromer entered the above saloon, and there met the feared husband.

"Are you going to live with me?" she asked.
He replied, "No," and at once said: "What is that under your sleeve?"
Immediately she drew forth a revolver and shot him, the ball passing into his body near the heart. He died about ten minutes later. She walked out of the saloon, and in conversation with a neighbor who happened to be passing said:

"I didn't want to kill him, but the Lord told me to. I have prayed that I might be taken away, for I loved my husband and wanted to live with him. I could not help this."

She was at once taken to the mayor's office and disarmed, all the time insisting that she did not want to kill him, but could not resist the command of the Lord. After a little while she was taken to jail, where she will act as a crazy person. If she is not crazy she fears it well.

Much excitement exists, as both parties have been well regarded in the community, and until recently were members of the church in good standing. Fromer recently had been agent here of a luring company.

HIED HIM AWAY TO CANADA.
With at Least \$25,000 of His Creditors' Money.

INDIANAPOLIS, Ind., May 9.—The whole town and retail grocery store of M. J. Williams were yesterday wrecked by fire about a week ago, and the circumstances attending it were regarded as very suspicious. The insurance companies, however, settled, but when some of Williams' creditors came to look into the matter they found that most of the drawers and many of the shelves were empty before the fire occurred, and that he was carrying only \$4,000 worth of goods.

Williams began to look in, and suits have now been filed aggregating \$25,000, while Williams has fled the city. Williams paid no bills for four months, but cut prices and did a trading business with an increased force. Fromer says that he left for the north Wednesday night, since which time she has not seen him.

Latest Freak of the Lynch Frenzy.
NEW ORLEANS, May 9.—At Floyd, West Carroll parish, La., last Thursday, a mob seized Richard Goodwin and Grace Blanton, both colored, and hanged them for robbing the store of A. & M. Bahr. It is said that the action of the mob is suspicious, and is nothing less than a thoroughly disguised scheme to lynch the former organizer of the Trades Assembly of western Pennsylvania.

It is claimed by Amalgamated men that the knights were never able to make a successful strike against any of the American mills, and that now the K. O. L. is working against the A. A. T. S. W. It is proposed to take the latter out of the Trades Assembly and let the knights see what they can do on their own hook.

A Lockout of Steve Molders.
DETROIT, May 9.—The Detroit and Michigan stove factories have closed down for an indefinite period. The Peninsula factory will remain closed. This throws 280 men out of employment. The lockout is the result of a communication from the Detroit association. The men were not informed of the contemplated shut-down until 6 o'clock Saturday night.

Strikes and Strikers.
The iron-works at Toxas, Baltimore county, Md., have struck for \$1.50 instead of \$1.25 per day. The bosses say they won't pay it. The brick-cutters of Baltimore are striking for \$3 per day, a raise of 50 cents. All the hewers in San Francisco discharged their union employees Saturday, throwing 200 men out of work.

The lockout by Philadelphia clothing men, after having been declared off after a conference with the K. O. L. officials. Union carpenters of Rochester, N. Y., have struck for ten hours pay for nine hours work. Employees of the Philadelphia & Reading railway have boycotted the Philadelphia brewers.

McGlyn on His Crossed.
BOSTON, May 9.—Rev. Dr. McGlyn lectured on the "Cross of the New Crusade" in the Boston theater Sunday night. The building was crowded, and the lecturer received an enthusiastic reception.

A Britisher with Good Taste.
New York, May 9.—Miss Melville, daughter of Senator Mitchell, of Oregon, who is reported to be engaged in marriage to Sir Lionel Russell-Wes, the British minister, sailed for Europe Saturday on the steamer Australia, accompanied by her mother. The British minister left for his post last week, and will visit at Liverpool, Paris, and London.

The New Minister to Austria.
WASHINGTON, May 9.—Gen. Alexander R. Lawton, our new minister to Austria, saw the president and Secretary Bayard Ruston yesterday on his mission. He will go over to the harbor of Wilhelmshafen, Germany, and to New York, returning here next week to receive his final instructions. He will then go to Savannah to close up his affairs there preparatory to sailing on May 30 for his post.

LABOR'S OPPORTUNITY.

MAYOR HEWITT PROPOSES A PLAN TO HIS EMPLOYEES.

A Chance to Test the Administrative Capacity of Co-Operation—Remarkable Scene at the Anti-Poverty Society Meeting—A Shower of Cash—General Notes from the Labor Field.

NEW YORK, May 9.—Mayor Hewitt has made an attempt to put in operation one of his schemes for the amelioration of the laboring man's condition, and on a very large scale, too. The report comes from a prominent Knight of Labor in the busy manufacturing town of Trenton, N. J., where the great iron works of Maynor & Co. of this city are located. It is nothing less than the fact that Mayor Hewitt's iron manufacturing firm, stimulated by the progress of events, the cravings of labor, and the condition of industry, recently made a grand offer to turn over the whole plant and establishment to the work people, to be managed by themselves for their own advantage, upon a co-operative basis. He and his partners are to receive a share of the profits in proportion to the amount of stock they have in their power to become their own capitalists, and the proposition has for some time been under consideration by the District Assembly No. 90 at Trenton. The general sentiment is strongly in favor of its acceptance, though of course there is some difficulty about the furnishing of the required guarantee.

If matters can be properly arranged, and the transfer effected, the people will see one of the most remarkable experiments ever undertaken in the world of modern industry—nearly 2,000 workmen managing the entire business of one of the largest iron manufacturing plants in the United States, choosing their own directors, selecting the heads of departments, appointing the foremen, and assigning themselves their respective duties, with the wages thereon. If this can be done harmoniously, and for the benefit of all concerned, the Trades Cooperative Iron works, now the property of Cooper, Hewitt & Co., will attract the attention of capitalists, wage earners and philosophers all over the land.

IT FAIRLY RAINED MONEY.
At the Anti-Poverty Society Meeting—An Immense Audience.

NEW YORK, May 9.—The Academy of Music was filled to-night at the second meeting of the Anti-Poverty society. The crowd was so great that the doors had to be locked at an early stage of the proceedings and admittance absolutely refused to any one. In the streets around was a struggling mass of humanity vainly seeking entrance. James Redpath presided and Henry George spoke for over an hour. He scored the metropolitan press for its hostility to the society, and explained at length the purposes for which the body was formed. A collection was taken up, but owing to the crowded condition of the house but little progress could be made by the collectors.

When they returned to the stage Mr. George dropped his contribution, one of the last he has. The audience seemed to identify the house. Those who had not been reached by the collectors threw their silver on the stage as fast as they could. For four or five minutes money fairly rained on the stage, \$200 was picked up from the platform and \$300 was taken up by the collectors. The score was one of the most remarkable ever witnessed in this city.

Jealousy Between Labor Organizations.
PITTSBURGH, Pa., May 9.—For several weeks past a quiet movement has been going on in labor circles, which if allowed to fully develop will bring the biggest kind of a reaction among trade organization and union officials. The movement is the direct result of the bad blood between the Amalgamated Association and the Knights of Labor, and is nothing less than a thoroughly disguised scheme to lynch the former organization out of the Trades Assembly of western Pennsylvania.

It is claimed by Amalgamated men that the knights were never able to make a successful strike against any of the American mills, and that now the K. O. L. is working against the A. A. T. S. W. It is proposed to take the latter out of the Trades Assembly and let the knights see what they can do on their own hook.

A Lockout of Steve Molders.
DETROIT, May 9.—The Detroit and Michigan stove factories have closed down for an indefinite period. The Peninsula factory will remain closed. This throws 280 men out of employment. The lockout is the result of a communication from the Detroit association. The men were not informed of the contemplated shut-down until 6 o'clock Saturday night.

Strikes and Strikers.
The iron-works at Toxas, Baltimore county, Md., have struck for \$1.50 instead of \$1.25 per day. The bosses say they won't pay it. The brick-cutters of Baltimore are striking for \$3 per day, a raise of 50 cents. All the hewers in San Francisco discharged their union employees Saturday, throwing 200 men out of work.

The lockout by Philadelphia clothing men, after having been declared off after a conference with the K. O. L. officials. Union carpenters of Rochester, N. Y., have struck for ten hours pay for nine hours work. Employees of the Philadelphia & Reading railway have boycotted the Philadelphia brewers.

McGlyn on His Crossed.

The New Minister to Austria.
WASHINGTON, May 9.—Gen. Alexander R. Lawton, our new minister to Austria, saw the president and Secretary Bayard Ruston yesterday on his mission. He will go over to the harbor of Wilhelmshafen, Germany, and to New York, returning here next week to receive his final instructions. He will then go to Savannah to close up his affairs there preparatory to sailing on May 30 for his post.

Won't Have French Convicts as Neighbors.
LONDON, May 9.—The Australian colonies have informed Lord Salisbury that if their interests in the matter of French penal settlements are ignored they will themselves enact legislation forbidding French convicts from landing in Australia.

Blaine Purchases Capital City Properties.
WASHINGTON, May 9.—James G. Blaine has purchased from Thomas H. Sherman, for \$4,500, a piece of property on Morris hill, fronting 75 feet on Sixteenth street and 150 feet on Huron street.

HUCKLEBERRY'S ARMY SALVE.
The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures all sores, or no pay required.
